

Corporate Profile

Connected to Global Partners; Working for You!

Alpha is privately owned and operated. We are big enough to support our customers' needs; yet flexible enough to provide our customers with real chemical solutions in a timely fashion. We are fellow Canadians supporting our B2B Industries, keeping profits in Canada.

For the past 25 years, Alpha has been the leading privately held chemical distributor in Atlantic Canada. We continue to grow annually, thanks to the support of our valued customers, trusted supplier partners, and our dedicated employees. We have developed strategic alliances with global partners to strengthen our chemical supply chain, enabling us to remain competitive while maintaining the personal touch of a "Customer First" Company. Alpha's commitment to "24/7 Based Service" is the foundation of our growth, retention, and development. We stand behind our commitments by putting words into action every day, providing solutions to our customers through innovative chemistry!

Alpha strives to become a leader in new technologies and formulations. We understand the importance of Research & Development (R&D). Alpha's R&D Program is designed to work closely with our customers through the design of leading edge technology based on renewable resources, technical expertise, and innovation.

In 2018, Alpha expanded to St. John's, Newfoundland by constructing a state-of-the-art chemical facility and QA/QC Laboratory to support the growing oil and gas, mining, and water treatment industries. Our Facilities offer; Rail (NS), warehousing, laydown storage areas, bulk storage, repackaging services, custom blending services, chemical transfer, and supply chain management.

We are ready to work on our customer's most complex challenges without compromising quality, satisfaction, or safety. Safety is increasingly important in today's chemical industry. Alpha has invested much time and effort to adopt the OHSAS Standards to protect our workers, contractors, and workplace. We promote a culture where safety is encouraged and rewarded.

We believe prompt follow up is crucial in today's fast paced and quickly changing business environment. We are committed to tracking on time delivery and customer satisfaction within an Eco Conscious Environment as part of our commitment to ISO 9001. As proud members of RDC (Responsible Distribution Canada) we are committed to the responsible distribution of chemicals by protecting our people, our environment, and our community.

We are “Involved” in our community

Responsible Distribution Canada (RDC)

Health & Safety

We respect and follow the guidelines of responsible distribution, protecting the safety of our employees, our customers and our community.

Integrity

We do the right thing by practicing the highest ethical standards and by honoring our commitments.

Developing People

We provide opportunities for our team to actively participate in the development of their careers.

Teamwork

We promote team goals ahead of individual goals in an environment of mutual respect.

Constant and Never-Ending Improvement (CANI)

We embrace a culture of attaining excellence in all aspects of our business.

Environmental Sustainability

We take full responsibility to manage products and services safely within an ecosystem conscious environment.

Family

We create, nurture and sustain an environment where family matters.
