

CORPORATE PROFILE

Connected to Global Partners, Working for You!

Alpha is privately owned and operated. We are big enough to support our customers' needs; yet flexible enough to provide our customers with real chemical solutions in a timely fashion. We are fellow Canadians supporting our B2B Industries, keeping profits in Canada.

For the past 25 years, Alpha has been the leading privately held chemical distributor in Atlantic Canada. We continue to grow annually, thanks to the support of our valued customers, trusted supplier partners, and our dedicated employees. We have developed strategic alliances with global partners to strengthen our chemical supply chain, enabling us to remain competitive while maintaining the personal touch of a "Customer First" Company. Alpha's commitment to "24/7 Based Service" is the foundation of our growth, retention, and development. We stand behind our commitments by putting words into action every day, providing solutions to our customers through innovative chemistry!

Alpha strives to become a leader in new technologies and formulations. We understand the importance of Research & Development (R&D). Alpha's R&D Program is designed to work closely with our customers through the design of leading-edge technology based on renewable resources, technical expertise, and innovation.

In 2018, Alpha expanded to St. John's, Newfoundland by constructing a state-of-the-art chemical facility and QA/QC Laboratory to support the growing oil and gas, mining, and water treatment industries. Our Facilities offer; Rail (NS), warehousing, laydown storage areas, bulk storage, repackaging services, custom blending services, chemical transfer, and supply chain management.

We are ready to work on our customer's most complex challenges without compromising quality, satisfaction, or safety. Safety is increasingly important in today's chemical industry. Alpha has invested much time and effort to adopt the OHSAS Standards to protect our workers, contractors, and workplace. We promote a culture where safety is encouraged and rewarded.

We believe prompt follow up is crucial in today's fast paced and quickly changing business environment. We are committed to tracking on time delivery and customer satisfaction within an Eco Conscious Environment as part of our commitment to ISO 9001. As proud members of RDC (Responsible Distribution Canada) we are committed to the responsible distribution of chemicals by protecting our people, our environment, and our community.

At Alpha Chemical We Stay Involved and Support Our Community, we are proud members of Responsible Distribution Canada and contribute to many fundraisers and charities. MPWWA (Maritime Provinces Water and Wastewater Association), NOIA (Newfoundland Ocean Industries Association), CANS (Construction Association of Nova Scotia), CME (Canadian Manufacturers & Exporters), Halifax Chamber of Commerce, Feed Nova Scotia, Christmas Daddies, Local Hockey, Local Church Groups, World Vision, Golf for the Cure, Cystic Fibrosis, Children’s Hospital Calgary and many more.

Alpha Offers an Extensive Line of Products and Services Serving Industries All Over the World. Offering bulk storage and handling, chemical feed systems, custom blending, railcar trans-loading, repackaging services, dangerous good specialists, supply chain management and technical services. We have been serving the oil and gas, water and wastewater, mining, aqua and agriculture, industrial, and transportation industries for over 25 years. Our qualified team delivers the best customer service and technical support for your day to day requirements.
